

Learning Science or Math requires

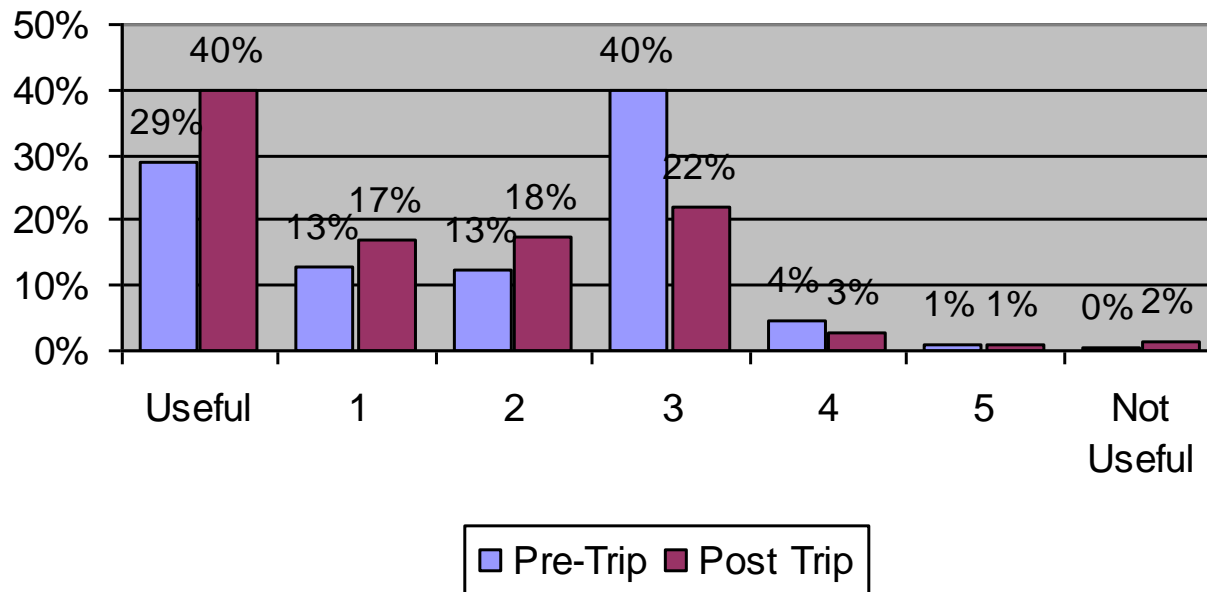

How do you feel about science courses?

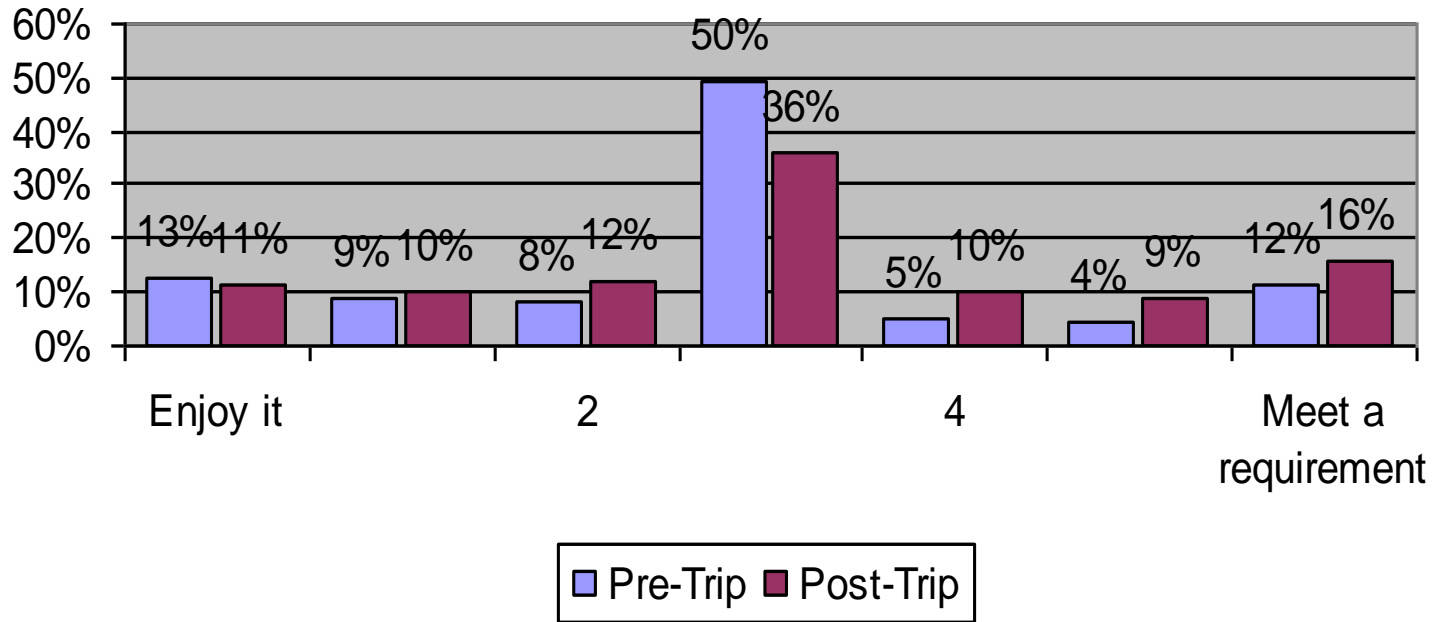

Would you like to take more science courses?

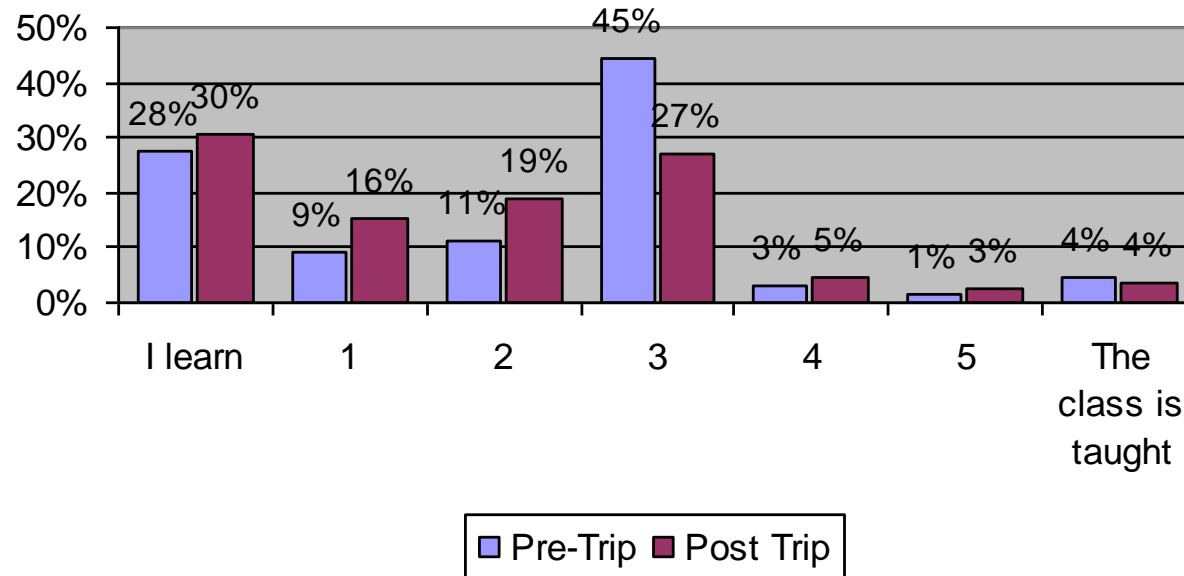

Reasoning skills that are taught in science courses are

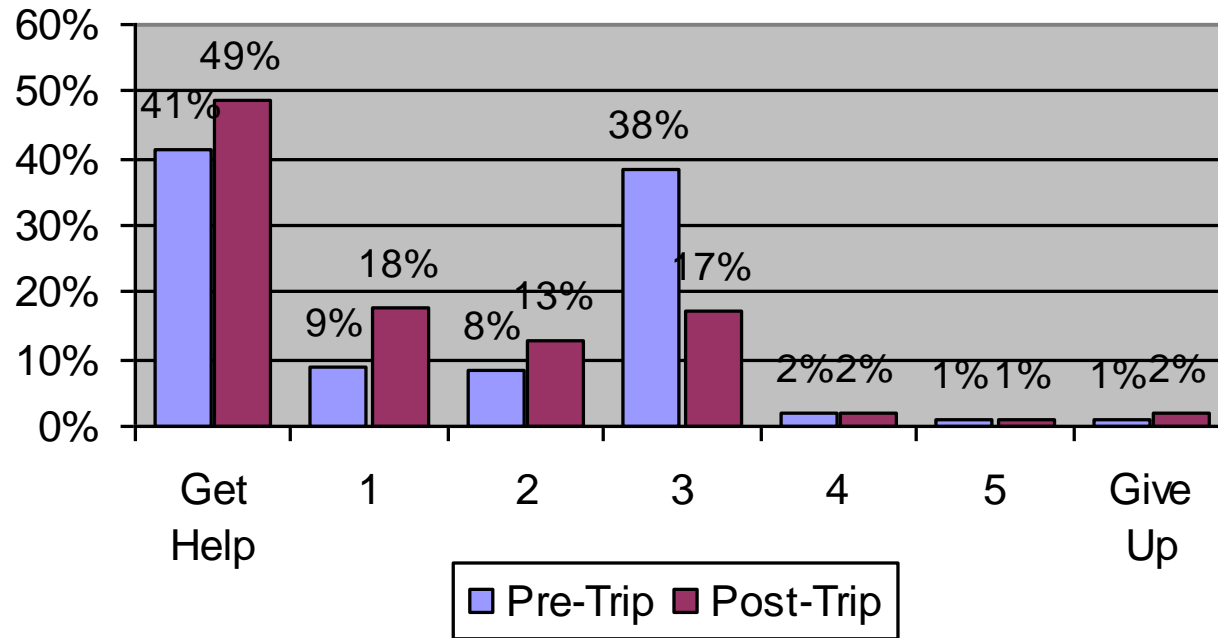

I take science to

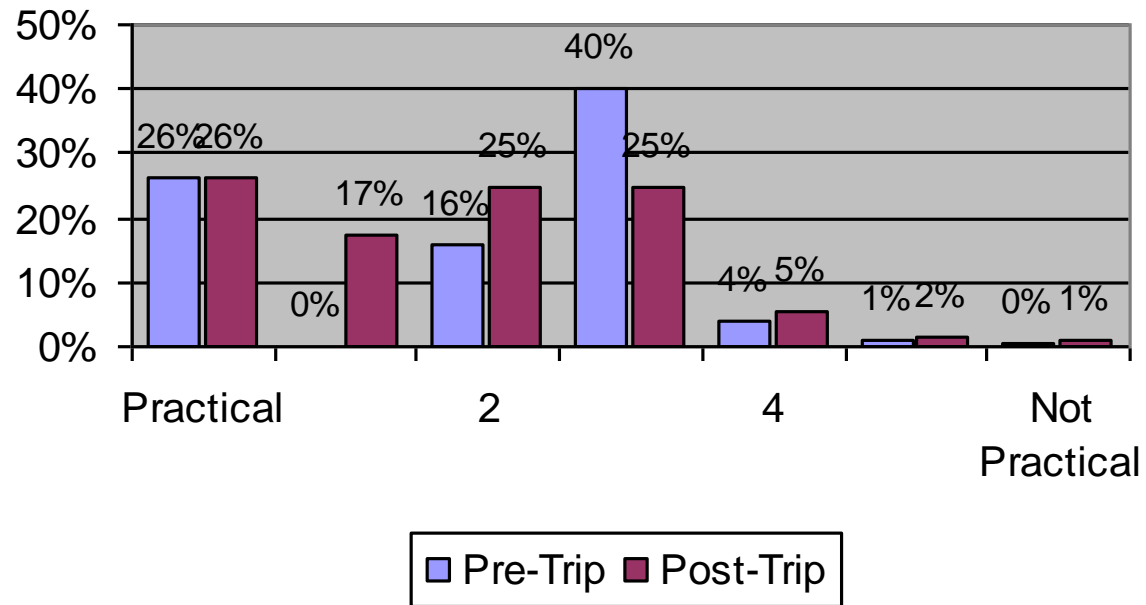

My score on science exams is a measure of how well

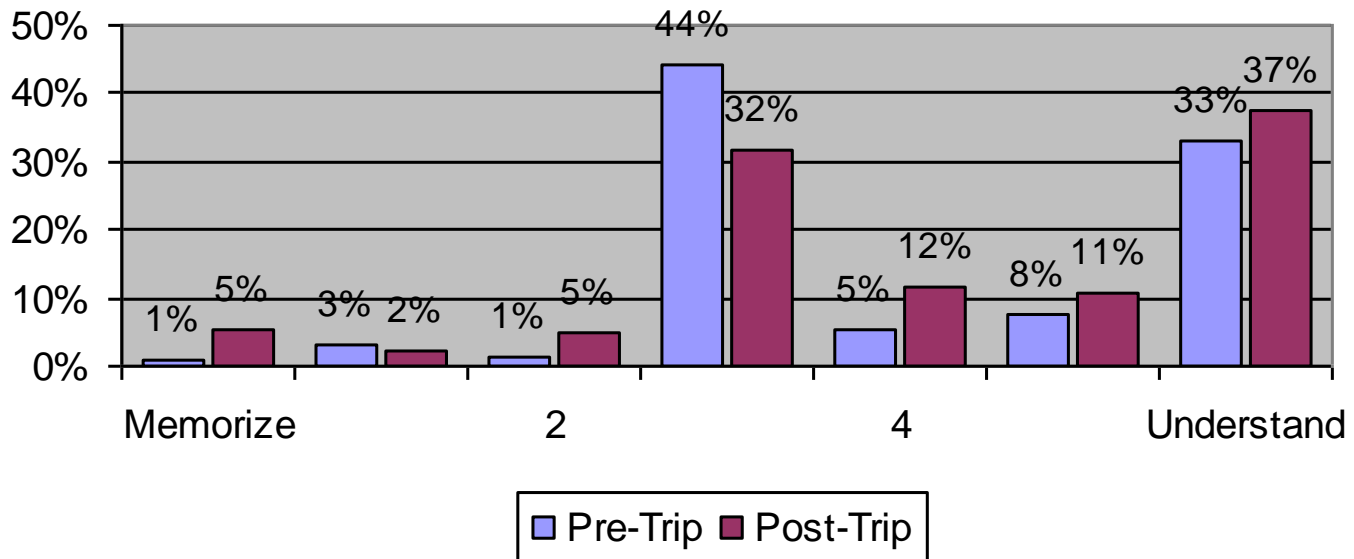

When I have a question when studying science I

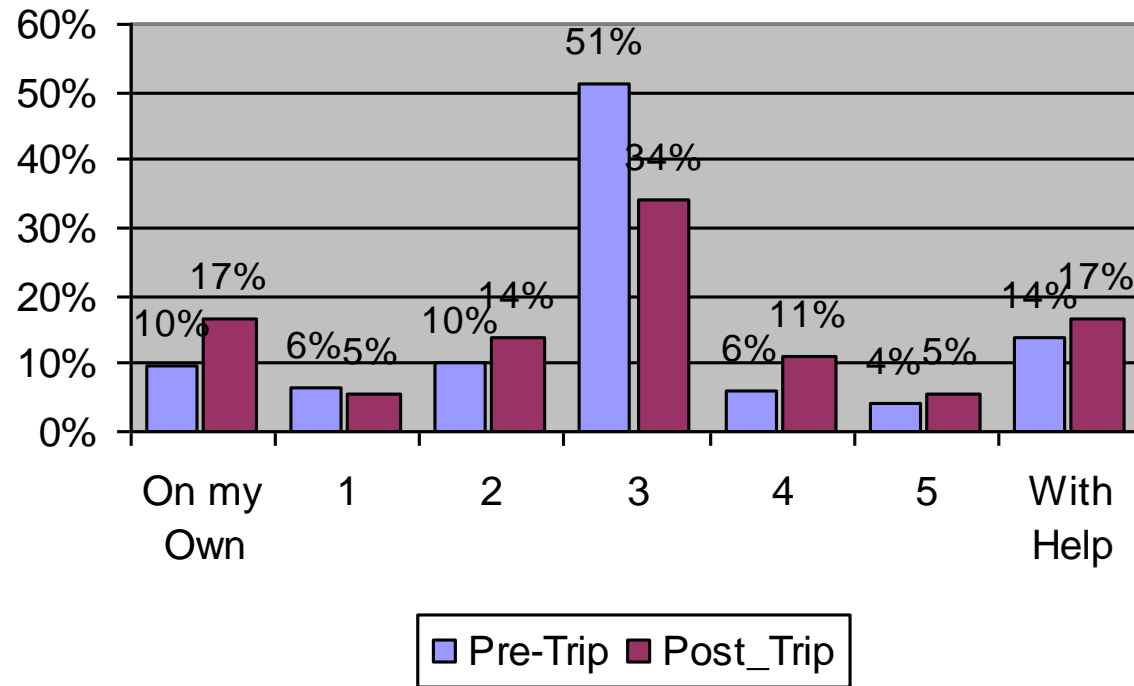

For me, the benefits of learning science are

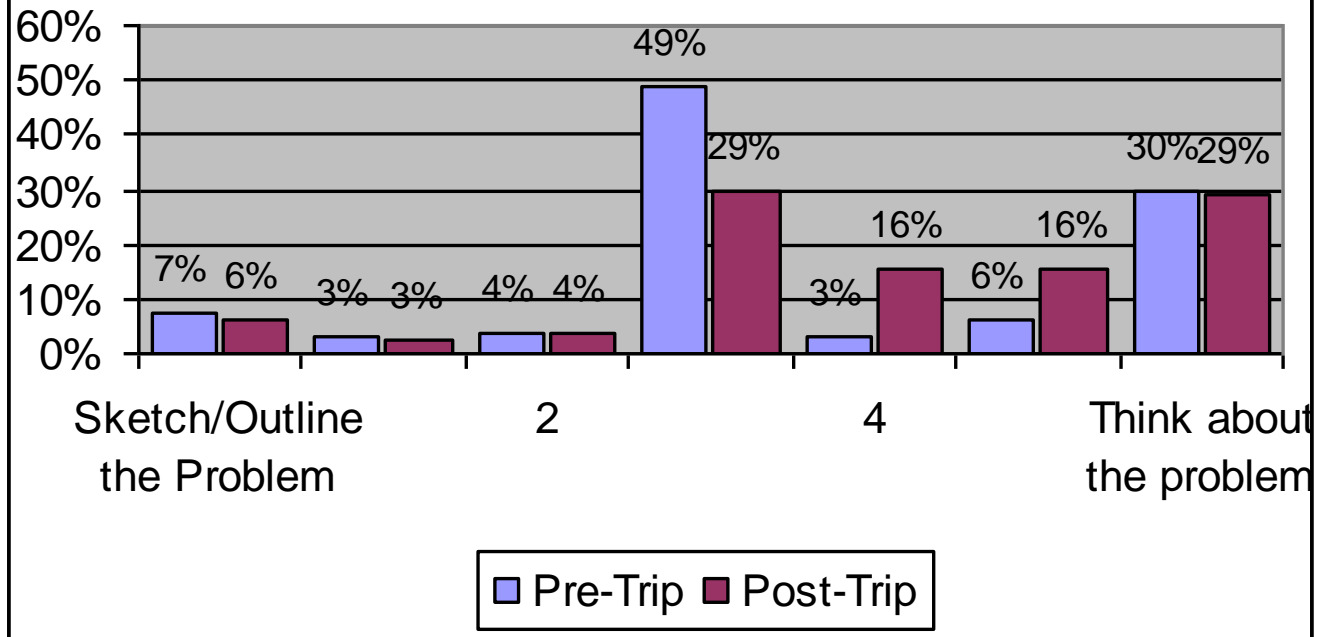

In science it is important for me to

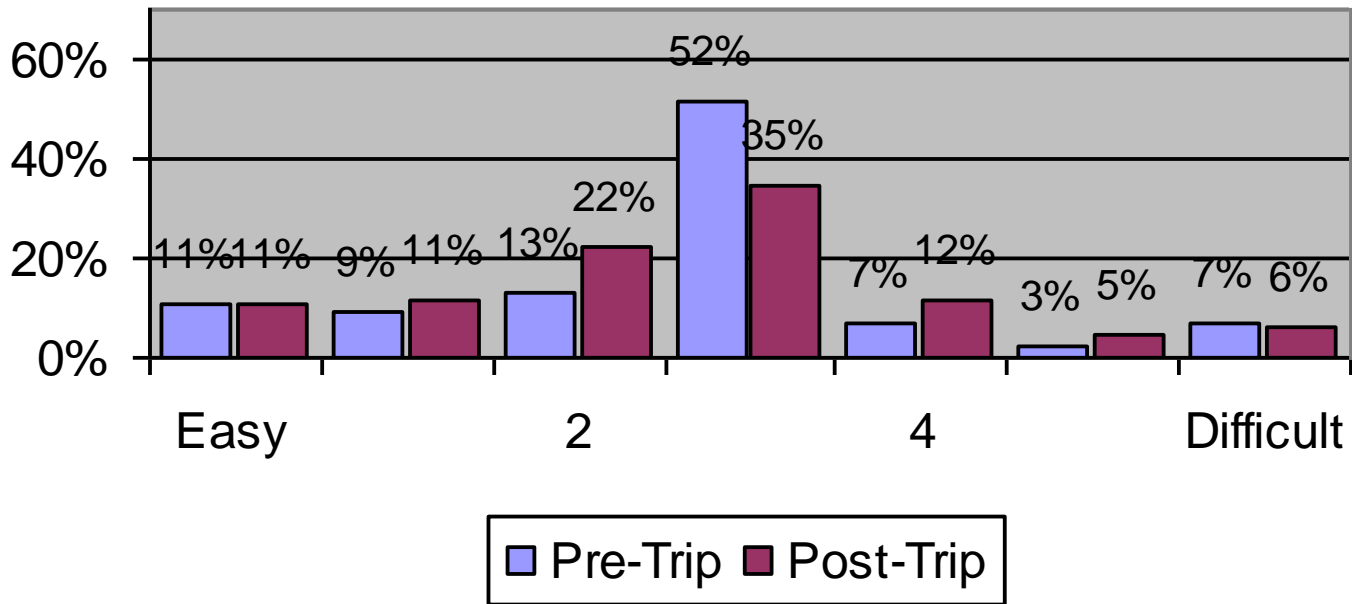

I like working science problems

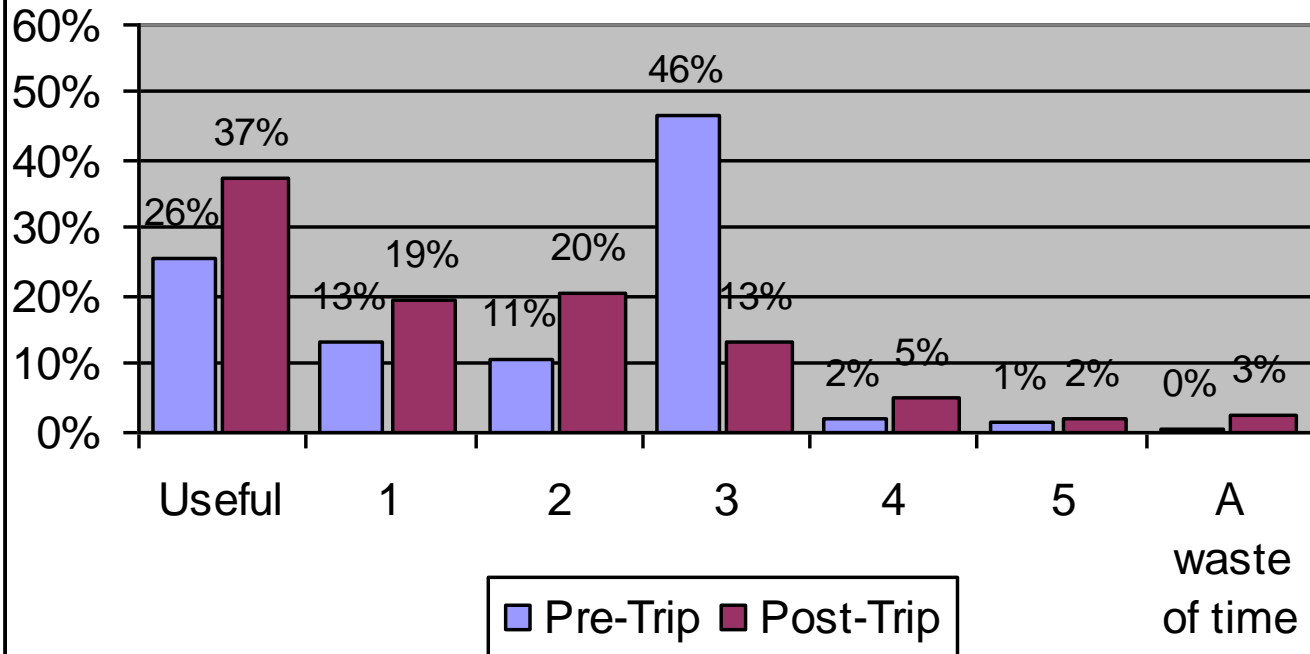

The first thing I do when solving a science problem is

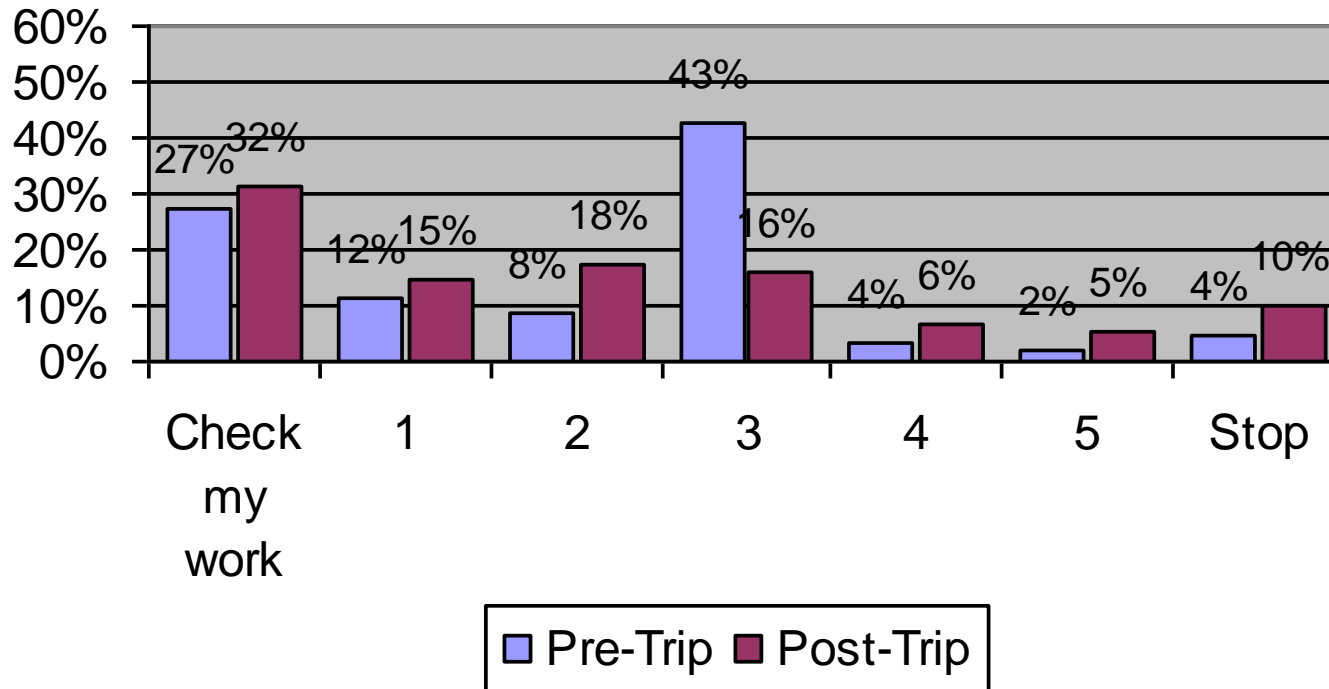

Using scientific or mathematical formulas is

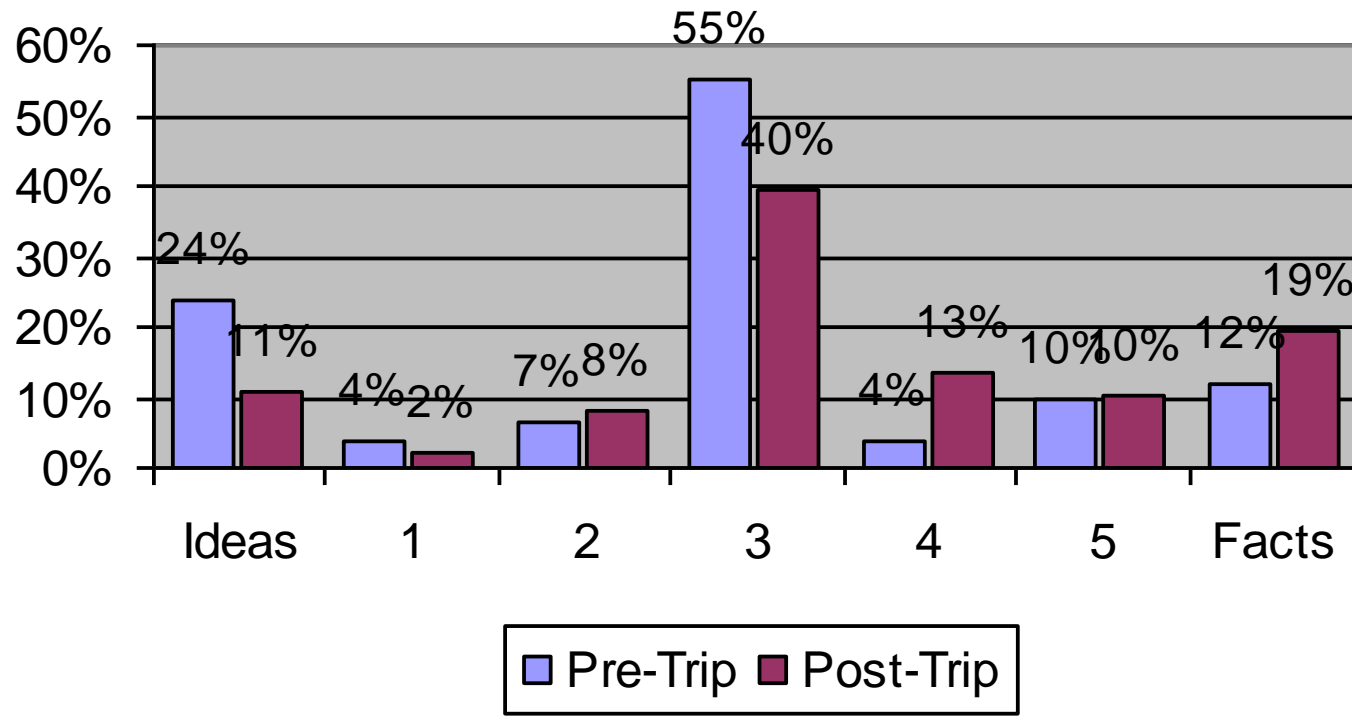

For me, solving a science problem more than one way is

After I have answered all questions in a science or math problem, I

To me, science is important as a source of

Basic laws of science (such as gravity)
